Permit No: 222/1308/05
Bulletin Date: 1st August 2022

Pages: 2
Attachments: 1 (2 Pages)

To: **All Pace Note Competitors**

From: **Event Clerk of the Course**

Use of RallySafe Recce Lite Phone Application

As of Monday 1st August, 2022 the Lazer Rally of the Bay will be using the RallySafe Recce Lite phone application.

As such, it is mandatory that all Competitors that have entered the 2022 Lazer Rally of the Bay – Bay Stages Pacenote Event must download and use the application in accordance with the attached instructions. (Attachment: RS Lite Recce Info).

The purpose of the application is to allow the Event Organisers to track competitors in the forest during recce, so each competitors location and speed can be tracked and enforced.

Please read all Reconnaissance Rules listed in Point 7.4 of the Event Supplementary Regulations.

Any Breach of Reconnaissance Rules will be referred to the Stewards for application of penalties.

Take special note that all road speed limits apply and the **maximum speed on all forestry roads is 60km/h.**

The Competitor RallySafe Lite Codes are listed on Page 2 of this Bulletin.

Recce Registration Form

The Event Secretary has emailed a Recce Registration Form to all Pacenote competitors. This form can also be downloaded from the Sportity App.

To receive your Roadbook and other necessary Recce information, please email the completed Recce Registration form to the Event Secretary at adriana.pallister@nsscc.com.au.

402120	Timothy Wilkins	Jim Gleeson
224720	Tony Sullens	Kaylie Newell
292837	Troy Dowel	Bernie Webb

RS Lite Usage for 2022

20/05/2022

New RS Lite from RallySafe. The free app is available on the Google Play and Apple App store. Competitors are responsible for having a device capable of using the app with GPS tracking and a battery lasting the entirety of recce. Considerations should be made to make sure the phone or tablet can be charged and there are no 3rd party applications that may disable GPS tracking.

QR CODE FOR BOTH HERE:
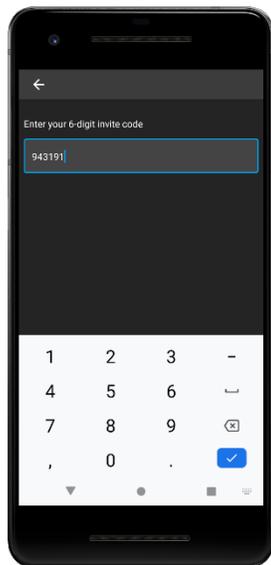

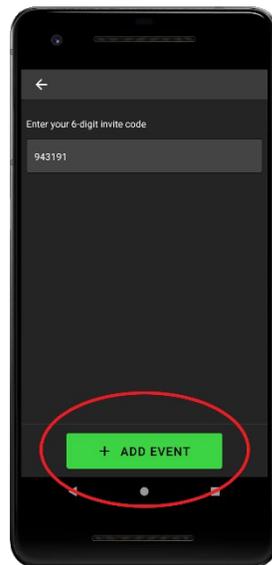

(Google Play Store)   (Apple App Store)

Each car number will be given a unique code to enter into the app.

| Main Screen when app is opened. Click "add event". | Enter unique code. | Click add event. | Click accept invite. |

Click start tracking when beginning recce.

Main Screen off stage when tracking.

When logged into the event with your code, the main screen will display your current speed and two odometers. Both odometers can be reset by pressing and holding the mileage.

As you arrive to a stage, the screen will display the maximum KPH allowed, along with the odometers and your current speed. If you exceed the allowed speed limit, a red bar speeding message will be displayed at the top of the screen.

In this example, 80kph is the speed limit.

Note the speeding message.

When you begin recce, the application must be active on your phone and stay active during transits and while on stages. The phone can be used for other uses such as texting, navigation, etc. but should stay on the RS Lite app as much as possible during transits and at all times on stages. Your position, speed, and direction of travel will be monitored during the recce period.

Additionally, if the app is forcefully disabled on stage, a report is generated and may result in an infraction being applied. With privacy concerns in mind, the app does not track or send data if it is not active on the screen. Because of this, competitors must make sure the app is active during recce. If the app doesn't report for an extended period of time during recce, an alert is sent in the monitoring system.
