RALLY OF THE BAY

Bulletin – 1:

Event: 2022 Lazer Rally of the Bay
Date of event: 13th August 2022
Permit No: 222/1308/05
Bulletin Date: 1st August 2022

To: All Competitors with a vehicle fitted with a turbocharger or supercharger
From: Event Scrutineer and Event Stewards

Restrictor and Logbook Check – Friday 12th August 2022

The [National Rally Standing Regulations – Vehicle General clause 3.1 - SUPERCHARGER SEALING REQUIREMENTS](#) were updated in the 2022 Motorsport Australia Manual.

To ensure that all requirements are met, all vehicles fitted with a turbocharger or supercharger will be checked at the 2022 Lazer Rally of the Bay. The Event Scrutineer will be checking to see if the vehicle is fitted with an appropriate restrictor.

Under the regulations, each competitor is required to fit the restrictor and to fit the necessary sealing wire with enough additional length so that a seal can be fitted whilst the turbo remains fitted to the vehicle. In some cases, the actual measurement of the restrictor is not always easy, however the fitment of a restrictor can be at least visually checked, and seal should be fitted. The seal details should be recorded in the Vehicle Logbook and a statement that the restrictor has been measured (and what size) at the time of sealing or not. See Diagram 1: Recommended wiring method for the restrictor (turbocharger).

If the competitor has a restrictor that has not been sealed, and the Event Scrutineer does not have the time or the equipment at the 2022 Lazer Rally of the Bay to fit the seal, a note will be made in the Logbook and the competitor will need to organise a seal to be fitted before competing at the next Motorsport Australia rally event.

Failing to fit a Restrictor is a non-compliance with the Standing and Event Regulations and could be considered a false declaration on the Statement of Vehicle Compliance whereby the Competitor has signed this declaration stating that their automobile complies with all regulations for the event.

The Event Stewards at the 2022 Lazer Rally of the Bay will be conducting an audit of logbooks, entry documentation and scrutiny related forms to identify and note vehicles which may need action to bring them in line with current regulations and requirements.

2022 Lazer Rally of the Bay Schedule for Restrictor and Logbook Checks:

All competitors with a vehicle fitted with a turbocharger or supercharger must present their vehicle to the Event Scrutineers at the time and venue specified below. The Competitor must also present to the Event Stewards their logbook and a printed copy of their filled in Vehicle Compliance Form at the same time.

Date:	Friday 12 th August 2022
Time:	Between 6:00pm and 8:00pm
Venue:	Batemans Bay Marina Resort, 49 Beach Rd, Batemans Bay Front Car Park: As you turn into the driveway, turn right into the Visitor car park opposite reception. See Diagram 2: Map
