RALLY 12.–13.8.2022

RALLY GUIDE

- Historic Rally Trophy, round 5/7
- Historic Regularity, rounds 5–6/8
- Qualifying Event for 2022 FIA Trophy for Historic regularity rallies (NEAFP)

Dear Varaosaexpert Ralli's competitor,

It is a pleasure and honor to welcome You and your team to compete in the national Varaosaexpert Ralli. After lots of work and preparations we are ready for You.

After the Covid-19 years, a gratifying number of Finnish and foreign historic drivers have registered for these two rallies; Lahti Historic Rally and Varaosaexpert Ralli. We have a full amount of competitors, which we are very pleased for.

The route again consists of traditional Finnish rally roads, on Friday around Orimattila area and on Saturday around Lammi. The rally has demanding Special Stages which requires a lot. Both days consist of three separate Special Stages, each to be run twice. So, if you want to succeed, you have to be on the right pace from the first meters of the rally.

The old tricks are the best again; a fair attitude towards fellow competitors and good teamwork makes this rally a memorable and wonderful event for all of us.

I wish You and your team all the best and good luck in Varaosaexpert Ralli !

Tomi Jääskeläinen
Clerk of the Course
Varaosaexpert Ralli 2022

2.3 RECONNAISSANCE	SCHEDULE	
<u>SS</u>	<u>WEDNESDAY 10.08.2022</u>	<u>THURSDAY 11.08.2022</u>
SS 1 / 4	8:30 - 17:30	7:00 - 16:00
SS 2 / 5	8:30 - 17:30	7:00 - 16:00
SS 3 / 6	8:30 - 17:30	7:00 - 16:00
SS 7 / 10	8:30 - 17:30	7:00 - 16:00
SS 8 / 11	8:30 - 17:30	7:00 - 16:00
SS 9 / 12	8:30 - 17:30	7:00 - 16:00

Competitors must follow the reconnaissance schedule above!

Number plates (2 stickers) for reconnaissance car must be displayed at the top right of the front windscreen and rear right side window and remain visible during reconnaissance at all the times.

If, for any reason, a crew is forced to replace the reconnaissance car during the reconnaissance period, the Rally Secretariat must be informed (tel: +358 400 431 413) about the details of the new reconnaissance car.

If this procedure is not followed, the access of the Competitor to reconnaissance will be cancelled, All reconnaissance cars will be equipped with a GPS safety tracking device.

The maximum speed set for the reconnaissance of the SS is 80 km/h, except for those areas in which there are speed limit signs or in built-up areas (30 km/h to 60 km/h) or other limitations marked in the Road Book. Driving speeds are monitored particularly closely with GPS safety tracker devices and speeding will be penalized!

Speed limits and restrictions are for our common good. If habitants along the route and nature suffer from the rally or reconnaissance and if competitors endanger other traffic, it will make more difficult to organise rallies in the future. There will inevitably be some inconvenience caused by the rally, but let's do our best to reduce that.

Reconnaissance must always be made without endangering other traffic and people along the route. Please pay special attention on other traffic, because farmers might be working on the fields and that's why there could be large vehicles moving along the route.

Amount of reconnaissance on each Special Stage is free, but crews are not permitted to drive in opposite direction unless the organizer or officials permit it by giving instructions or orders.

PLEASE NOTE! Competitors are solely responsible for the damage caused during reconnaissance.

Service stations have clearly marked card or card/cash fuel pumps. Each competitor must have credit card with them. Cash payment is not possible in all refueling stations. We recommend Competitors to make themselves familiar with the refueling places during the reconnaissance period.

Refueling is allowed only on refueling zones (RZ), on commercial fuel stations marked in Road Books. Competitors' cars may be refuelled in RZ from fuel pumps or from their own petrol cans with commercially available fuel (FIA Appendix K, article 3.9). Two team members may access the RZ to assist each crew. The assisting team personnel must be wearing clothing which will provide adequate protection against fire and includes at least: long trousers, long-sleeved top, closed shoes, a balaclava and gloves.

Refueling is strictly prohibited on Service Parks and on liaisons (excluding the refueling zones (RZ) marked in Road Books) and the violence of the rule impose sanction up to exclusion.

The engine must be stopped, and crew should remain outside the car during refueling. If crew stays in the car, safety belts must not be affixed.

Competitor is responsible to protect the ground with an Environmental Mat which shall be composed of an absorbent upper part and an impermeable lower part. Competitor is solely responsible for the refueling.

All the personnel assisting refueling must be wearing clothing which will provide adequate protection against fire **and includes at least: long trousers, long-sleeved top, closed shoes, a balaclava and gloves.**

Competitor is solely responsible for the refueling.

PLEASE NOTE! For safety reasons, fuel tank must be as empty as possible when entering Parc Fermé (TC6C) in to P Hansa parking hall in the end of Leg 1!

In Parc Fermé, there must be a piece of oil-soaking mat under the cars as protection.
