Description

Restores performance for all gasoline engines. • Improves horsepower & torque • Increases throttle response • Restores lost performance • Lowers engine temperature – smoother running • Safe to use – extends engine life • Increases fuel efficiency by 6-8% • Full bottle treats up to 2 full tanks of fuel This is the famous Magic Bullet fuel treatment. When added to gasoline Magic Bullet dramatically restores lost power whilst cleaning and protecting your engine. This unique worldwide protected fuel treatment technology restores clean engine performance, like driving your vehicle out of the showroom every time you start the engine.

Description

Restores performance for all diesel engines. • Cleans & protects EGR valves • Cleans & protects injection systems • Increases horsepower & torque • Increases throttle response • Restores lost performance • Lowers engine temperature – smoother running • Safe to use – extends engine life • Full bottle treats up to 2 full tanks of fuel This is the famous Magic Bullet fuel treatment. When added to diesel Magic Bullet dramatically restores lost power whilst cleaning and protecting your engine. This unique worldwide protected fuel treatment technology restores clean engine performance, like driving your vehicle out of the showroom every time you start the engine.

Description

Eco Friendly “Clean Burn” emissions reducer and fuel saver. • Eco Friendly and treats all gasoline/petrol and diesel engines • Increases fuel efficiency – gain up to 10% more MPG • Reduces harmful emissions by up to 25% • Increases catalytic converter efficiency • Reduces friction – can extend engine life • Prevents sludge build up in fuel • Prevents carbon build up • Reduces greenhouse gases associated with city driving • Full bottle treats up to 2 full tanks of fuel
